

NEUROFEEDBACK IS TOTALLY NON-INVASIVE. YOUR BRAIN IS SIMPLY GIVEN INFORMATION ABOUT WHAT IT HAS JUST DONE AND USES THIS INFORMATION TO RE-ORGANIZE ITSELF. WHEN IT REORGANIZES, UNWANTED ISSUES DROP AWAY, ALLOWING YOU TO BECOME THE BEST YOU, NATURALLY.

NEUROFEEDBACK DOES NOT TELL THE BRAIN WHAT TO DO OR NOT TO DO, SO IT NEVER PUSHES YOU IN ANY PARTICULAR DIRECTION.

NEUROFEEDBACK WORKS COMPREHENSIVELY ACROSS ALL AVAILABLE BRAINWAVE FREQUENCIES AND ADAPTS ITSELF TO YOUR INDIVIDUAL RESPONSE AND SIMPLY TRAINS YOUR BRAIN!

The New York Times October, 2010

“The results are to be announced Oct. 26 at the annual meeting of the American Academy of Child and Adolescent Psychiatry. In an interview in the summer, the study’s director, Dr. L. Eugene Arnold, an emeritus professor of psychiatry at Ohio State, noted that there had been “quite a bit of improvement” in many of the children’s behavior,” reported by parents and teachers.”

NEUROFEEDBACK

TREATMENT FOR:

- ◆ DEFICITS IN ATTENTION
- ◆ LEARNING AND/OR MEMORY DIFFICULTIES
- ◆ SLEEP DISTURBANCES
- ◆ DEPRESSION
- ◆ ANXIETY
- ◆ CONCENTRATION PROBLEMS
- ◆ HYPERACTIVITY
- ◆ MIGRAINE HEADACHES
- ◆ MOOD DISTURBANCE
- ◆ STRESS

...AND MORE

Do you feel like you're not living up to your potential?

Do you reach the end of a day and realize you've accomplished only a portion of what you set out to do?

Does your child "drift away" in the middle of a conversation or while doing homework?

Would you like your child to improve school performance?

Do you want to feel less anxious?

Does your child need relief from anxiety?

Would you like to feel better physically?

Do you need to help your child learn to regulate... calm down?

WHAT IS IT?

BRAIN ACTIVITY PRODUCES ELECTROMAGNETIC ENERGY. IN A NEUROFEEDBACK TRAINING SESSION THIS ENERGY IS RECORDED USING TINY EEG SENSORS PLACED ON THE SCALP AND EARS.

INFORMATION ON BRAINWAVE ACTIVITY IS BROADCAST BACK TO YOUR BRAIN AS AUDITORY AND VISUAL STIMULI. AS YOU LISTEN TO MUSIC OR WATCH A VIDEO DURING A TRAINING SESSION, THE MUSIC OR VIDEO STOPS WHEN THE BRAIN IS IN AN UNPRODUCTIVE STATE...AND IT ISN'T EVEN APPARENT TO YOU.

YOUR BRAIN MAKES ADJUSTMENTS TO RESTART THE MUSIC OR VIDEO AND LEARNS WHAT IT TAKES TO STAY IN A PRODUCTIVE ZONE. JUST LIKE RIDING A BIKE, THIS LEARNING STAYS WITH YOU, BRINGING TRANSFORMATION TO YOUR DAILY LIFE.
